Writing the Self-Study: General Considerations
Preparation

➢ Create a Self-Study Committee
  HUS staff, adjuncts, institutional research, student support services, tech support
  Designate a leader, meet regularly, make sure members understand standards, leader to arrange logistics of site visit

➢ Complete a curriculum gap analysis by using the appropriate degree CSHSE curriculum Matrix
  Ask teaching faculty for input on how courses comply with standards
  Complete Matrix using feedback from faculty and other Committee members

➢ Review current program policies and procedures to CSHSE Program Standards

➢ Create a plan and timeline for compliance with standards and for writing self-study- time (factor in time for curriculum and program changes with institution’s procedures and processes)

➢ Gather information from relevant sources (Institutional Research will be important).
  Prepare electronic folders for each standard to store files of documented evidence.
General Wisdom

• A program is held to the Standards, Templates, and Policies in the current CSHSE Member Handbook: Accreditation and Guidelines when the accreditation application is received.

• For reaccreditations, if you start working on self-study before sending application, check with a Board Member at Large and the website for any changes before proceeding.

• The importance of evidence: make sure you have evidence backing up all claims of compliance: appropriate documents (handbooks, policy manuals, college catalog, website access, course objectives, assignments on syllabi, activity directions.

• Make sure the Student Achievement indicators for Standard 4 are posted on your program website.
Self Study Expectations: Description and Documented Evidence

• Every Standard and Specification must:
  • Provide clear, detailed, concise and descriptive narrative
  • Refer the reader to the name and location of any documents (e.g. links, attachments/appendices) that support and verify statements made in the narrative. When appropriate, refer to the appropriate page or section of attached supporting multiple paged documents
  • Identify and briefly describe the ways in which a course or courses complies with each Specification (e.g. textbook chapters, lectures, in class activities, assignments, etc.). Refer the reader to the appropriate syllabus/syllabi and or specific assignments for verification.
Example Response for Curriculum Standards

3. Human Services Delivery Systems

**Context**: The demand for services and the funding of educational programs has been closely related to identifiable human conditions including, among others: aging, delinquency, crime, poverty, mental illness, physical illness, chemical dependency, and developmental disabilities. The needs that arise in these conditions provide the focus for the human services profession.

**Standard 13**: The curriculum shall address the scope of conditions that promote or inhibit human functioning.

**Specifications for Standard 13**: [For each Specification: provide clear, detailed, concise, and descriptive narrative and refer the reader to the name and location of any documents (e.g., attachments/appendices) that support and verify statements made in the narrative. When appropriate, refer to the appropriate page or section of attached supporting documents.]

**Demonstrate how the following are included as a major emphasis of the curriculum:**

**NOTE**: Identify and briefly describe the ways in which a course or courses comply with each Specification (e.g., textbook chapters, lectures, in-class activities, assignments, etc.). Refer the reader to the appropriate syllabus/syllabi and or specific assignment for verification.

**a.** The range and characteristics of human services delivery systems and organizations.

**Response:**

**HS-101: Overview of Human Services** This course introduces students to the range of human service organizations and delivery systems primarily through the required 20 hours of volunteer service at a human service agency. For this assignment they use Volunteer _____ a campus organization that facilitates volunteering. Students choose a volunteer site from a long list of organizations. After they complete their volunteer work, they create a PowerPoint Presentation on the experience to present to class. In addition, representatives from at least four human service agencies speak to the class during the semester.

- Found in: **HS-101: Master Syllabus**
- Assessment Tools: Volunteer Reflection Paper and Human Service Agency Paper and Presentation

**HS-220: Fundamentals of Nonprofit Organizations** requires students to read Chapter 3: Theories of the Nonprofit Sector and Nonprofit Organizations. This reading provides students information about the characteristics of nonprofit organizations with a particular emphasis on 501 (c) 3 organizations which are typically exemplified by human and social service...
Writing the Self-Study: Lessons Learned

Use the correct template!

- Include the Certification of Self-Study Page
- Ensure the courses on the Matrix match courses described in the narrative. Include the correct course syllabi in the appendices.
- Provide detailed descriptions on how a course(s) complies with a Standard and its Specifications.
- Provide documented evidence as verification for each Standard and Specification
Writing the Self-Study: Lessons Learned

Use the correct template!

- Ensure current compliance, not an intent to comply.
- Ensure all documents that verify standards are included.
- Use appendices documents and links to support the narrative, not in place of the narrative.
- Ensure that referenced data is consistent throughout the document.
- Ensure STUDENT SPECIFIC IDENTIFIERS ARE REMOVED - REDACT!
- Ensure that hyperlinks work and don’t require passwords - test on different platforms if possible.
- Proofread for spelling, grammar, and incomplete narratives.
- Paginate self-study narrative and longer documents that are included in the appendices.
